

Environmental Policy

Bluedog Fences Australia is committed to being an environmentally sound business. To meet our objectives of sound environmental practices in all activities Bluedog Fences Australia commits to:

- Continued development and implementation of an effective Environmental Management System (EMS), to plan, document, measure and monitor our performance;
- Ensure all employees and contractors comply with all relevant environmental laws, regulations, standards and company procedures;
- Identify and manage the environmental risks within our operations;
- Continually improve our performance through education, training, management review, benchmarking, and consultation; and
- Ensure the allocation of adequate company resources to Environment Management.

Bluedog Fences Australia & Sustainable Development

Beyond our commitment to traditional sound Environmental practices. Bluedog Fences Australia believes that a sustainable development approach is good business. We are striving to not only reduce environmental impacts but to also enhance the environment in which we operate. The aim being to meet the needs of today without compromising the ability of future generations to meet their needs. To do this, Bluedog Fences Australia will:

- Work with suppliers, customers, and the community to reduce net waste production, and minimize virgin materials input to the product cycle.
- Minimise the environmental impact of our services and products throughout the entire product life cycle.
- Use recycled materials, and minimise waste streams, and ensure that waste streams have maximum recyclable value to third parties, and are recycled where possible.
- Maintain and fund Research and Development to enable more efficient products and processes.

We aim to have our EMS certified to AS 14001 during 2010.

This policy applies to Bluedog Fences Australia in all its operations.
